## Volume - I

<b>ENGINEERING SEISMOLOGY &amp; SEISMOTECTONICS</b>	<b>1</b>
1. Seismotectonic Scenario of Himalaya and its Recent Developments <i>S.K. Acharyya and P.L. Narula</i>	3
2. Comparative Study of Source Parameters for Jabalpur Earthquake from P and S Waves Spectra using Digital Data of IMD Observatories <i>R.K. Verma, G. Suresh, A.K. Shukla and A.K. Ghose</i>	21
3. A Regional Seismic Network for Monitoring Instability of Water Inundated Deep Underground Mining Excavations at Kolar Gold Fields <i>C. Srinivasan, C. Sivakumar, S. Varadaraj, A. Vijaya Kumar, Sagaya Benady and Y.A. Willy</i>	29
4. Strong Ground Motion Attenuation Relation for Himachal Pradesh and Adjoining Regions <i>Ashwani Kumar, Rajeev Kumar and S.K. Jain</i>	37
5. Earthquake in Thane - Kharghar (Panvel) Belt on May 31; 1998 <i>Sushil Gupta, V. Mohandas and S. Lakshmana</i>	47
6. Determination of Source Parameters for Small Earthquakes in the Koyna Region <i>Brijesh K. Bansal</i>	57
7. Pattern of Two Earthquake Swarms in the Garhwal Himalaya <i>Ashwani Kumar, A.D. Pandey, M.L. Sharma, S.C. Gupta, A.K. Jindal and S.K. Jain</i>	67

8.	$Q_c$ and $Q_\beta$ Estimates in the Garhwal Himalaya using Strong Motion Records of Uttarkashi Earthquake <i>S.C. Gupta and Ashwani Kumar</i>	75
9.	A Preliminary Analysis of Broad-Band Seismic Data in the Garhwāl Himalaya Region <i>H.R. Wason, M.L. Sharma, A.K. Gupta and Kamal Kapoor</i>	85
<b>EXPERIENCES DERIVED FROM RECENT EARTHQUAKES</b>		101
10.	Jabalpur Earthquake of 22nd May, 1997 : Assessing the Damage using Remote Sensing and GIS Techniques <i>Arun K. Saraf</i>	103
11.	Assesment of the Health of Khandala Dam as an Aftermath of the Killari Earthquake <i>V.C. Deshpande and T.V. S. Ramakrishna</i>	117
12.	Experiences Derived from Earthquake occurred at Jabalpur on 22nd May, 1997 <i>S.S. Jawade, P.S. Pajgade, M.N. Pakade and S.S. Kulkarni</i>	125
13.	Post Earthquake Reconstruction and Rehabilitation in Jabalpur <i>Vinod K. Sharma and Amir Ali Khan</i>	133
14.	A Study on Damages to Urban Buildings in Recent Earthquake <i>Jose Kurian, A.K. Mittal and Deepak Narayan</i>	143
15.	Lesson Learnt from Damages to Highway Bridges during Kobe Earthquake, 1995 <i>A.K. Mittal, Jose Kurian and Deepak Narayan</i>	147
<b>EARTHQUAKE HAZARD AND RISK ASSESSMENT</b>		161
16.	Earthquake Induced Landslide Risk Zonation by the Application of GIS <i>P.L. Rajbhandari, Satyendra P. Gupta and K. Nualchawee</i>	163
17.	Assessment Criteria for Evaluation of likely Performance of living Environment in Seismic Areas <i>Vasudha A. Gokhale, Brijesh Chandra and Najamuddin</i>	171

18.	Application of Geodesy to Monitor Earthquake Hazard : An Overview <i>Madhav N. Kulkarni</i>	183
19.	Long-Term Earthquake Prediction in North-East India Based on Time and Magnitude Predictable Model <i>D. Shanker</i>	189
20.	A Statistical Approach for Seismic Microzonation <i>Abha Mittal and Tanuja Srivastava</i>	197
21.	Performance of Water Distribution System of UTD in a Post-Earthquake Scenario <i>Khalid Moin, M. Abul Hasan and Sirajuddin Ahmad</i>	211
22.	Microzonation of Mega Cities Based on Probabilistic Consideration <i>T. Naqvi, G.V. Ramana and T.K. Datta</i>	219
<b>STRONG GROUND MOTION AND SITE EFFECTS</b>		227
23.	Numerical Strong Ground Motion Simulation and Study of Local Site Effects <i>J.P. Narayan</i>	229
24.	A Note on the Phase Characteristics of Earthquake Ground Motions <i>M. Shrikhande and V.K. Gupta</i>	239
25.	IS Code 1893 : Design Response Spectra <i>D.K. Paul and J.D. Das</i>	245
26.	Rupture Models for Three Recent Himalayan Earthquakes using Duration of Strong Motion Records <i>A. Sinvhal, A. Joshi and H. Sinvhal</i>	255
27.	An Approximate Technique for Predicting Near Field Ground Displacement <i>Manoj Kumar Gupta and Irene Sarkar</i>	263
28.	Application of ANN in Simulation of Earthquake : A Critical Review <i>J. Pathak, D.K. Paul and P.N. Godbole</i>	271

29. Analysis of Strong Motion Records from Dharmasala Earthquake of April 26, 1986 281  
*M. Shrikhande, J.D. Das, M.K. Bansal, A. Kumar, S. Basu and B. Chandra*

**GEOTECHNICAL ENGINEERING** 287

30. Earthquake Response of Seismically Isolated Bridges with Soil-Structure Interaction 289  
*N.P. Tongaonkar and R.S. Jangid*
31. Idealization of Damping in Dynamic Analysis of Reinforced Earth 297  
*V.H. Joshi, B.V.K. Lavania and M. Siavoshnia*
32. Evaluation of Insitu Shear Modulus of Fractured Rock 305  
*S. Mukerjee and D.K. Paul*
33. A Closer Look at Liquefaction of Sands using Discrete Element Method 317  
*T.G. Sitharam, P.V. Nagaraja Rao and A. Vatsala*
34. Response of a Machine Foundation 325  
*Vijay K. Puri and Sanjeev Kumar*
35. Equivalent Parameter Analysis for Determining  $C_u$  of Reinforced Soil 333  
*Swami Saran, B.V.K. Lavania and R.K. Sharma*
36. Vibration Response of Turbogenerator Foundations 343  
*S.S. Saini and Anoop Shukla*
37. Dynamics of Underground Openings 353  
*Prabhat Kumar and Bhawani Singh*
38. Determination of Rheological Constants to Predict the Deformations of Laterally Loaded Short Pile in Clay 361  
*N.U. Khan, Owais Ahmad and Sarsij Patara*

## Volume - II

<b>STRUCTURAL ANALYSIS AND DESIGN OF BUILDINGS</b>		<b>371</b>
39.	The Importance of Structural Detailing in Seismic Resistant Construction <i>A.W. Charleson</i>	373
40.	Cumulative Seismic Fatigue Damage Assessment of Steel Structures <i>S. Bhattacharjee, K. Helmy and N. Mull</i>	381
41.	In-Plane Ductility Behaviour of Masonry Shear Walls <i>B. Sivarama Sarma, H.G. Sreenath, N.G. Bhagavan and A. Ramachandra Murthy</i>	389
42.	NIFAP : Software for the Analysis of 3D Reinforced Concrete Infilled Frames Subjected to Earthquake Excitation <i>Harpal Singh and D.K. Paul</i>	397
43.	Influence of Strength-Based Design of Members on Seismic Energy Dissipation in Steel MRFs <i>K.S.N. Gupta and C.V.R. Murty</i>	409
44.	Influence of Seismic Detailing on Hysteretic Behaviour of RC Frames <i>U. Ramesh, Durgesh C. Rai and S.K. Thakkar</i>	417
45.	Seismic Evaluation of Strengthening Measures in Stone Masonry Houses <i>Pankaj Agarwal and S.K. Thakkar</i>	427
46.	Experimental Results of the Ambient Vibration Survey of RC MRF Buildings with URM Infill Walls <i>Jaswant N. Arlekar and C.V.R. Murty</i>	437
47.	System Identification of Buildings - A Review <i>A.K. Datta, M. Shrikhande and D.K. Paul</i>	445
48.	Dynamic Response of Masonry Wall Subjected to Soft Impact Load <i>S. Raghunath, B.T. Jagadeesha Kumar and K.S. Jagdish</i>	453

49. Effect of Nonlinear Analysis on Floor Response Spectrum 461  
*R.K. Ingle and S.S. Kulkarni*

**INDUSTRIAL AND SPECIAL STRUCTURES AND MATERIALS 471**

50. Effect of Earthquake on Large Span Steel Structures 473  
*R.G. Bais, R.K. Ingle and S.S. Kulkarni*

51. On the Earthquake Resistant Design of Industrial Structures - Codal Provisions 479  
*K.G. Bhatia*

52. Frequency Domain Analysis of Cable-Stayed Bridges Under Stationary Random Ground Motion 497  
*Said M. Allam and T.K. Datta*

53. Wave Hydrodynamic Effect on the Seismic Response of Offshore Guyed Tower Platform 505  
*A.K. Jain*

54. Dynamic Analysis of Shaker 513  
*Aashish Bhatia*

55. Fatigue-Life Distributions of Steel Fibrous Concrete for Various Stress Levels 523  
*S.P. Singh and S.K. Kaushik*

56. Effect of Support Geometry on the Free Flexural Vibration of Ferrocement Plates 531  
*M. Arif, K. Ali and S.A. Khan*

57. Bridge Structures for High Seismic Zone Basic Concepts and Special Features 547  
*T.K. Basu, A.K. Bhattacharya and R.K. Goswami*

**NUCLEAR AND THERMAL POWER PLANTS AND DAMS 555**

58. Seismic Qualification of Existing Nuclear Fuel Cycle Facilities 557  
*Prabir C. Basu*

59. Nonlinear Analysis of Concrete Containment Structure Under Earthquake Loading  
*A. Nayak and D.K. Paul* 569
60. Seismic Safety of High Rock-Fill Dams  
*D.K. Paul* 577
61. Seismic Response and Permanent Deformation Analysis for Warna Earthen Dam, Maharashtra  
*I. Azaraiah, N.R. Dhat, B. Muralidhar, P.B. Tongaonkar and (Mrs.) M.V. Chhatre* 587
62. Dynamic Analysis of a Typical Concrete Vault for Nuclear Waste Tank Farm  
*Ved Singh, K.V. Srinivas, G.J. Pandya, R.S. Soni, H.S. Kushwaha, V. Venkat Raj, (Mrs.) L. Ranjit, K. Bhargava, R.N. Patnaik and S. Ramanujam* 595
63. An Overview of Seismic Design Philosophy for Nuclear Fuel Cycle Facilities in India  
*R.S. Soni, H.S. Kushwaha and V. Venkat Raj* 603
64. Aseismic Design of a Typical Large Nuclear Waste Storage Tank  
*R.S. Soni, H.S. Kushwaha, V. Venkat Raj, K.V. Srinivas, Ved Singh and G.J. Pandya* 611
65. Seismic Safety Analysis of Lower Terna Dam  
*D.K. Paul* 619
66. Ultimate Load Capacity of Seismic Shear Walls  
*R.K. Singh, H.S. Kushwaha and V. Venkat Raj* 629
67. Seismic Qualification of a Valve Actuator Assembly -A Case Study  
*P. Srinivasulu, K. Muthumani, N. Gopala Krishinan and K. Sathish Kumar* 639
- ACTIVE AND PASSIVE CONTROL OF STRUCTURAL RESPONSE** 649
68. Seismic Response of Torsionally Coupled Structures with Active Control Devices  
*V.A. Date and R.S. Jangid* 651

69.	Nonlinear Active Control of Building Frames Under Seismic Excitation <i>S. Sarbjeet and T.K. Datta</i>	659
70.	A Comparative Study of Viscoelastic Damper Models in Building Frames Under Seismic Excitation <i>A.K. Shukla and T.K. Datta</i>	667
71.	Aluminium Shear-Link as an Energy Dissipator for Truss Moment Frames <i>Durgesh C. Rai and Krishna Prasad V.S.G.</i>	675
72.	Seismic Response of Base Isolated Buildings Subjected to Earthquakes of Different Characteristics <i>S.K. Jain and S.K. Thakkar</i>	687
73.	Vibration Control of Primary-Secondary Systems using Variable Frequency Pendulum Isolator <i>M. Pranesh and Ravi Sinha</i>	697
74.	Use of ANN for Linear Active Control of Structures <i>M.M. Rao and T.K. Datta</i>	705
75.	A Sleeved Bracing System for Earthquake Resistant Design of Tall Buildings <i>V. Kalyanaraman, B.N. Sridhara, V. Thairani and B. Ramachandran</i>	713
76.	Seismic Design of Unreinforced Masonary Building with Pure Friction Supports <i>H. Shakib and M. Kaveyani</i>	721
77.	Seismic Behaviour of Structures with Tuned Liquid Dampers <i>Mohan M. Murudi and P. Banerji</i>	729
<b>REPAIR AND RETROFIT OF STRUCTURES</b>		<b>737</b>
78.	Design of Visco-Elastic Dampers for Seismic Retrofitting of Framed Structures <i>S.K. Deb and S. Choudhury</i>	739
