

CONTENTS

Preface

v

SECTION I – ENGINEERING SEISMOLOGY

ENGINEERING SEISMOLOGY AND SEISMOTECTONICS

1. A Probabilistic Method to Generate Artificial Earthquake Ground Motions 1
M. Cibi Jacob, Ing. Steffen Marburg and Vasant A. Matsagar
2. Seismic Hazard Mitigation Efforts in Indian Context 11
A.K. Shukla
3. Present Seismotectonic Status of the Central Himalaya 26
Prosanta K. Khan, M. Mohanty and Shushil Kumar
4. A Frequency Independent Q_{β} for the Syntaxis Region of NW Himalaya, India 36
Sushil Kumar and Rama Sushil
5. Potential Source Zones of Himalayan Earthquakes: Supplementary Analysis 52
Sujit Dasgupta, Basab Mukhopadhyay and Anshuman Acharyya
6. Integrated Geo-Exploration over Solani Knee-Bend, NW Himalaya 62
Abhishek Singh, Kamal, M.L. Sharma and Sri Niwas
7. Regression Relations Towards Unified Moment Magnitude Earthquake Catalogs for North-East India Region 72
Ranjit Das, H.R. Wason and M.L. Sharma
8. The Attenuation Mechanism of Seismic Waves in the Garwhal-Kumaun Himalayas 80
S. Mukhopadhyay and J. Sharma
9. Attributes of Local Seismicity of the Garhwal Himalaya 90
Ashwani Kumar, S.C. Gupta, M.L. Sharma, A.D. Pandey, A.K. Jindal, Sanjay Kr. Jain, Arup Sen, Arun Kumar and Neetu Goswami

STRONG GROUND MOTION AND SITE EFFECTS

10. An Analysis of the Site Amplification Effects in the NGA Attenuation Relationships 100
Suman S. Jain and I.D. Gupta

11. Statistical Parameters for Modeling the Stochastic Nature of Strong Ground Motion in Koyna Dam Region, India <i>I.D. Gupta</i>	108
12. Complex Mode Transformation and Spectral Amplification of Basin Transduced Rayleigh Waves <i>J.P. Narayan</i>	115
13. Prediction of Average Shear Wave Velocity of Site Using Strong Ground Motion Records and ANN <i>Rajiv Sachdeva, Ashok Kumar, and M.L.Sharma</i>	126
14. Estimation of Earthquake Strong Ground Motions in the Gujarat Region, India <i>Sumer Chopra and Dinesh Kumar</i>	138
15. Simulation of Earthquake Ground Motion Using a Semi Analytical Model <i>A. Ravi Kiran M.K. Agrawal and A.K. Ghosh</i>	148
16. Site-Specific Ground Motion Simulation Using Stochastic Method <i>Ashish Harbindu, M.L. Sharma, Kamal</i>	157
17. Near-Fault Ground Motion-an Engineering Perspective <i>Prabhat Kumar, Ashwani Kumar and A.D. Pandey</i>	167
EARTHQUAKE HAZARD ASSESSMENT	
18. Comparison of Fixed and Adaptive Kernel Techniques to Seismic Hazard Estimation for Peninsular India <i>K.R. Chethanamba and G.R. Dodagoudar</i>	179
19. Probabilistic Seismic Hazard Analysis for Kalpakkam, Tamil Nadu <i>L. Kanagarathinam, G. R. Dodagoudar and A. Boominathan</i>	192
20. Evaluation of Seismic Hazard for Andaman-Nicobar Region: Probabilistic Approach <i>T.G. Sitharam, Sreevalsa Kolathayar and K.S. Vipin</i>	204
21. Development of Site Specific Design Response Spectrum Based on Different Codal Provisions <i>K.S. Vipin and T.G. Sitharam</i>	212
22. Assessment of Seismic Risk in a Microzone <i>Ila Gupta and Amita Sinvhal</i>	224
23. Comparison of Site Specific Pga Using Neural Networks and Regression Models <i>S. Venugopal, Ashok Kumar and M.L. Sharma</i>	233
24. Probabilistic Seismic Hazard Assessment of Delhi <i>G.C. Joshi and M.L. Sharma</i>	253
25. Prediction of Peak Ground Acceleration Using Artificial Neural Network for Himalayan Region, India <i>Abha Mittal, D.P. Kanungo and Shaifaly Sharma</i>	260

SEISMIC VULNERABILITY AND RISK ASSESSMENT

- | | |
|--|-----|
| 26. Seismic Vulnerability Assessment Using High Resolution Satellite Data and Field Studies
<i>P. Anbazhagan, V.T. Giridhar, Ganesh Raj K. and V. Shreedhara</i> | 267 |
| 27. Damage Assessment of Recent Earthquake Using Principal Component Analysis
<i>Rajesh Prakash, R.K. Singh and H.N. Srivastava</i> | 277 |
| 28. Seismic Vulnerability of Guwahati And Possible Damage Due to Rayleigh Waves
<i>Arun Bapat</i> | 286 |
| 29. Tsunamigenic Vulnerability of Some Ports on Indian Coast
<i>Arun Bapat</i> | 292 |
| 30. Earthquake Risk Assessment for Disaster Risk Management Master Plan of Mumbai
<i>Ravi Sinha, Alok Goyal, Rohan M. Shinde and Mahendra Meena</i> | 297 |
| 31. Building Seismic Vulnerability Assessment Methods: Relevance to India
<i>Ashish Sapre and Ravi Sinha</i> | 314 |
| 32. Seismic Risk Assessment of Gorakhpur for Disaster Management
<i>Deepak Jaiswal and Ravi Sinha</i> | 327 |
| 33. Preliminary Seismic Vulnerability Assessment of Bageshwar and Nainital Town of Uttarakhand (India) Using Rapid Visual Screening Methodology
<i>Piyooosh Rautela, Girish Chandra Joshi and Bhupendra Baisora</i> | 336 |
| 34. Evaluation of Seismic Risk of Buildings in Metropolitan City Based on RVS Technique Using Remote Sensing & GIS: An E- Governance Approach for Chennai City, Tamil Nadu
<i>S. Rajarathnam and A.R. Santhakumar</i> | 345 |

EARTHQUAKE PREDICTION AND EARLY WARNING SYSTEM

- | | |
|---|-----|
| 35. EDIM - Earthquake Disaster Information System for the Marmara Region, Turkey
<i>F. Wenzel, M. Erdik, N. Köhler, J. Zschau, C. Milkereit, M. Picozzi, J. Fischer, J. Redlich, F. Kühnlenz, B. Lichtblau, I. Eveslage, I. Christ, R. Lessing and C. Kiehle</i> | 359 |
| 36. An Algorithm for Automatic Detection of Primary Wave Onset for Early Warning System
<i>Rakhi Bhardwaj, Ashok Kumar and M.L. Sharma</i> | 373 |
| 37. Seismicity Precursors Associated With Local Earthquakes in the Garhwal Himalaya
<i>R. Surya Prakash, Ashwani Kumar and S.C. Gupta</i> | 381 |
| 38. Concept of Outgoing Long-Wave Radiation and a Possible Earthquake Precursor
<i>J.D. Das, A.K. Saraf and V. Rawat</i> | 392 |

SEISMIC INSTRUMENTATION

- | | |
|--|-----|
| 39. Seismotectonics of Gulf of Khambhat Development Project (GKDP) and its Seismic Monitoring Scheme, Gujarat State
<i>M.S. Patel, D.M. Pancholi, Sanjay Srivastava</i> | 400 |
| 40. Site-Specific Simulation of Earthquake Strong Ground Motions Using a Semi-Empirical Technique
<i>Manisha, Dinesh Kumar and S.S. Teotia</i> | 407 |
| 41. A Comparative Study of Response Spectra of Recorded Events in the Northeast India
<i>S. Tamuli, J. Pathak, B.D. Saikia and B. Sharma</i> | 418 |

SECTION II – GEOTECHNICAL EARTHQUAKE ENGINEERING

MICROZONATION AND URBAN PLANNING

- | | |
|---|-----|
| 42. Structural Health Monitoring of Buildings Using Wireless Sensors: a Review
<i>Ajay Chourasia, Ayon Mohon Ghosh, Jalaj Parashar and S.K. Singh</i> | 427 |
| 43. Site Response Studies of Yamuna River Floodplains in Delhi
<i>P.K.S. Chauhan and Y. Pandey</i> | 436 |
| 44. Simulation of Basement Topography Effects on the Ground Motion Characteristics
<i>Amit Shiuly and J.P. Narayan</i> | 444 |
| 45. Seismic Response of Shallow and Deep Stiff Soil Sites
<i>S. Krishna Kumar and A. Boominathan</i> | 456 |
| 46. Seismic Hazard Map for the State of Karnataka with Local Site Effects: Probabilistic Seismic Hazard Analysis
<i>T.G. Sitharam, Naveen James and K.S. Vipin</i> | 469 |
| 47. Preliminary Seismic Hazard Map of Peninsular India
<i>C. Rajaram, B. Narender, Neelima D. Satyam and Pradeep R. Kumar</i> | 479 |
| 48. Current Seismic Hazard Scenario in Garhwal-Kumaun Himalayas
<i>Ajay Paul</i> | 492 |
| 49. Organisational Structure for Earthquake Disaster Mitigation in Narendranagar Block of Tehri Garhwal District
<i>Ila Gupta and R. Shankar</i> | 502 |

DYNAMIC PROPERTIES OF SOILS AND GROUND RESPONSE

- | | |
|--|-----|
| 50. Effect of Embedment and Geogrid Reinforcement on Coefficient of Elastic Uniform Shear in Silty Sand
<i>Hasan M. Rangwala, Swami Saran and S. Mukerjee</i> | 513 |
| 51. Extension of Mononobe-Okabe Expression for Active Earth Force on Retaining Wall Backfilled with C- Φ Soil
<i>Sima Ghosh and Joyanta Pal</i> | 522 |

52. Dynamic Pressure on Circular Silos Under Seismic Force <i>Indrajit Chowdhury and Raj Tilak</i>	531
53. An Overview of Seismic Design Considerations for Lining Designing Transportation Tunnels <i>Vahed Ghiasi, Husaini Omar, Zainuddin b. Md. Yusoff, Bujang Kim Huat, Ratnasamy Muniandy, Nassin Ghosni, Amin Nushini, Mohamad Amin Afshar, Samad Ghiasi, Seyed Ghavamodin Hosaini, Mohammad Ghiasi and Sina Kazemian</i>	541
54. Dynamic Response of Soil-Raft-Structure System under Varying Soil Medium <i>Y.K. Gupta and Kumar Venkatesh</i>	560

FOUNDATION FOR VIBRATING SYSTEMS AND LIQUEFACTION

55. Effects of Amplitude, Frequency and Relative Density on Liquefaction Resistance of Sand <i>H.P. Singh, B. K. Maheshwari and Swami Saran</i>	569
56. Experimental Studies on Seismic Behaviour of Bridge-Pier System Supported by Well Foundation <i>Supratic Gupta, R. Ayothiraman and S.P. Sreenivas Padala</i>	579
57. Dynamic Analysis of Forced Draft Fan Foundation: A Comparison Between Analytical and FE Approach <i>Malay Kumar Dutta and Rajib Sarkar</i>	590
58. Three-Dimensional Analysis of the Dynamic Interaction Effects Between Two Surface Foundations <i>A. Boumekik and B. Sbartai</i>	598
59. Soil-Structure Interaction Effects on Fatigue Life of a Long Span Railway Steel Truss Bridge <i>Sukanta Chakraborty and A.D. Pandey</i>	607
60. Seismic Displacement of Retaining Wall with Reinforced Backfill <i>S.K. Saran and M.N. Viladkar</i>	617
61. A Study of Bearing Capacity of Strip Foundations with Structural Skirts <i>Bibha Das Saikia and Nayanmoni Chetia</i>	627

SOIL STRUCTURE INTERACTION

62. Effect of Soil-Pile-Structure Interaction on Dynamic Characteristics of Safety Related Nuclear Facility <i>Istiyak Khan, M.K. Agrawal, A.K. Ghosh, K. Sasidharan</i>	631
63. Do DSSI Attenuate Dynamic Response of Building? <i>Indrajit Chowdhury and Jitendra P. Singh</i>	644
64. Modeling of Boundary for SSI Analysis Using SBFEM <i>N.M. Syed and B.K. Maheshwari</i>	655

- | | | |
|-----|--|-----|
| 65. | Soil Structure Interaction Analysis of Framed Structures: A Review on Numerical Methods
<i>P. Sushma and R. Pradeep Kumar</i> | 663 |
| 66. | Soil Characteristic and Microzonation Study in the Delhi – A Cosmopolitan City by Ground Ambient Noise Measurements
<i>A.K. Mundepi and Kamal</i> | 673 |
| 67. | Deterministic and Probabilistic Seismic Microzonation – Geotechnical Issues
<i>P. Anbazhagan</i> | 679 |

SECTION III- STRUCTURAL DYNAMICS

EARTHQUAKE RESPONSE ANALYSIS, DESIGN AND CONSTRUCTION

- | | | |
|-----|--|-----|
| 68. | Response of a Building Structure with Bi-Directional Effects
<i>Goutam Ghosh and Yogendra Kumar Gupta</i> | 691 |
| 69. | Performance of Specially Detailed Shear Wall – Diaphragm Connection Under Cyclic Loading
<i>S. Greeshma and K.P. Jaya</i> | 695 |
| 70. | Seismic Response Evaluation of Setback Frame Buildings by Random Vibration Analysis
<i>M. Pirizadeh and H. Shakib</i> | 708 |
| 71. | Analysis of Floor Diaphragms in Multi-Storeyed Reinforced Concrete Buildings
<i>Amlan K. Sengupta</i> | 718 |
| 72. | Curvature Ductility of Reinforced Concrete Beams at High Strain Rates
<i>Akhilesh K. Pandey</i> | 729 |
| 73. | Proportioning of Beam–Column for Safe Joint Design
<i>P.A. Chitre and R.K. Ingle</i> | 744 |
| 74. | Estimation of Governing Parameters of the Structure Subjected to Ground Motion Using Transfer Function Approach
<i>Sathe Prashant Dasharath, Ashok Kumar and S.K. Thakkar</i> | 751 |

EARTHQUAKE RESISTANT DESIGN OF STRUCTURES

- | | | |
|-----|---|-----|
| 75. | Expanded Mesh Shear Wall: A New System for Low Seismic Applications
<i>K.P. Vimay, S.B. Kharmale and S. Ghosh</i> | 760 |
| 76. | Seismic Lateral Force Distribution for Performance-Based Plastic Design
<i>Sumit Bhamare, Swapnil B. Kharmale and Siddhartha Ghosh</i> | 770 |
| 77. | Methodology for Estimating Statistical Parameters of Base Shear Capacity of Buildings for Different Performance Levels
<i>K.A. Krupakara, P. Kamatchi, M.B. Anoop, Balaji Rao K., and Nagesh R. Iyer</i> | 781 |
| 78. | Measured and Modelled Response of a Masonry Wall Under Out-of-Plane Vibration
<i>K. Bhattacharya, A. Gaur and I. Chakraborty</i> | 787 |

79. Traditional Construction and Commonly Adopted Masonry Construction in Kashmir: A Comparative Study 793
Wani Ahmad and Javed Ahmad Bhat
80. Effect of Soil Stiffness on Natural Period of Rigid Structural Frame System 800
S.K. Prasad, Srikanta S. Prasad, Syed Shakeeb Ur Rahman and G.P. Chandradhara

PASSIVE CONTROL OF STRUCTURAL RESPONSE

81. Earthquake Energy Dissipation System in Reinforced Concrete Framed Buildings 811
F. Hejazi, A.A. Abdulrazeg, M.S. Jaafar, W.A. Thanoon and J. Noorzai
82. Seismic Control of Benchmark Highway Bridge With Pseudo-Negative Stiffness Dampers 818
Suhasini N. Madhekar
83. Seismic Response of Torsionally Coupled System with Semi-Active Dampers 828
Snehal V. Mevada and R.S. Jangid
84. Tuned Liquid Column Damper in Seismic Vibration Control of Structures Under Random System Parameters 839
Rama Debbarma, Subrata Chakraborty and Saibal Ghosh
85. Reliability of Base Isolated Liquid Storage Tank Under Parametric Uncertainty Subjected to Random Earthquake 851
Sudib K. Mishra and Subrata Chakraborty
86. A New Approach to Obtain Optimum TMD Parameters Using Equal Modal Mass Criteria 866
Abhay N. Gajre, Shrikant V. Dhage and O.R. Jaiswal

ACTIVE CONTROL OF STRUCTURAL RESPONSE

87. Application of Displacement Governed MR Damper to Base-Isolated Building Subjected to Near-Field Earthquakes 877
Ajay Sharma
88. System Design with Restraining Devices for the Protection of Equipments from Vibration & Shock of Seismic and Micro-Seismic Nature 889
S.N. Bagchi and Ratish Jain
89. Fuzzy Control of SDOF System with MR Damper Considering Soil-Structure Interaction 896
S.G. Karthiga Devi, G.R. Dodagoudar, V.B. Maji
90. Seismic Vibration Control of a Bridge Pier Using Tuned Mass Dampers 908
J.K. Halder and A.(D.) Ghosh
91. X-Plate Elasto-Plastic Dampers—A Better Substitute of Snubbers for Nuclear Piping Supports under Seismic Loading 916
P.N. Dubey, R. Verma, G.R. Reddy, K.K. Vaze and A.K. Ghosh

92. Seismic Response Control of Structures with Pseudo-Elastic Shape Memory Alloy Damper 926
Y.M. Parulekar, G.R. Reddy, K.K. Vaze, K. Muthumani and R. Sreekala
93. Seismic Response Control of Piping System with X-Plate Damper and Visco-Elastic Damper 936
Praveen Kumar, R.S. Jangid and G.R. Reddy
94. Dynamic Characteristics of Structures with Tuned Mass Friction Dampers 949
Alka Y. Pisal and R. S. Jangid

SEISMIC BEHAVIOUR OF STRUCTURES

95. Seismic Behavior of Non-Seismically Detailed Reinforced Concrete Structural Systems and Components – What have We been Learning? 960
Bing Li
96. Time Domain Seismic Responses of Base Isolated RCC Framed Building 979
P. Nagarajan, Navjeev Saxena, and Pankaj Agarwal
97. A State-of-the-Art Review of Seismic Isolated Masonry Buildings with Restricted Base-Sliding 986
S. Ahmad and M. Qamaruddin
98. Concrete Jacketing with Supplemental Damping for Seismic Retrofit of a Non-Ductile Concrete Building 998
Sandeep Donald Shah
99. Active Control Mechanism for Articulated Leg Platform 1010
B.P. Suneja
100. An Efficient Parallel Processing Scheme Using Hybrid Domain Algorithm 1019
S. Aggrawal, R. Arora, P.K. Emani and A. Mittal
101. Seismic Performance Enhancement Methodology for Framed Structures Using Supplemental Damping 1026
K. Sathish Kumar, K. Muthumani, C. Antony Jeyasehar and Nagesh R. Iyer
102. Influence of Train Speed on Fatigue Characteristics of a Steel Girder Railway Bridge 1035
Sabuj Baran Mondal, Sukanta Chakraborty, S. Guchhait and A.D. Pandey
103. Seismic Performance of Moment Resisting Frames with and Without Knee Bracing 1044
J.G. Solanki and Gulbhile D. Balaji

SEISMIC QUALIFICATION OF EQUIPMENTS

104. Seismic Behaviour of Monolithic and Precast Beam-Column with Cleat Angle Connections 1055
R. Vidjeapriya, K.P. Jaya
105. Numerical Investigations on Tall Regular Structures with Stiffness Eccentricity Under Earthquakes: Static and Dynamic Nonlinear Analysis 1065
C. Justine Jose, T.P. Somasundaran and V. Mustafa

106. The State of Art on Seismic Qualification of Transformer Bushing System <i>Srujana Nandam, Indrani Gogoi and Ramesh Babu</i>	1075
107. Application of Nonlinear Fluid Viscous Dampers for Mitigating High-Velocity <i>Shocks Dilip Narkhede, and Ravi Sinha</i>	1083
108. Analysis of Piping Systems with Non-Linear Supports using Multi-Point Iterative Response Spectrum Method <i>Rajeev Kr. Verma, G.R. Reddy and K.K. Vaze</i>	1094
109. Methodology Evolved for Seismic Qualification of the Piping Systems for Critical Facility <i>Rajesh Mishra, G.R. Reddy and K.K. Vaze</i>	1104

CODAL PROVISIONS ON EARTHQUAKE RESISTANCE

110. Provisions for Ductile Shear Walls in IS 13920 -1993 <i>Ashok K. Mittal and Ranjith K. Shetty</i>	1112
111. Response Reduction Factor of a RC Framed Structure Based on Local Damage <i>Apurba Mondal, Siddhartha Ghosh and G.R. Reddy</i>	1119
112. Seismic Design Provisions in IS 800-2007: A Review <i>Ajinkya Pachhapurkar and Pankaj Agarwal</i>	1130
113. Review of Critical Seismic Analysis Provisions in IS 1893 Part 4 for the Design of Industrial Structures <i>Yogesh D. Pisal, Sukanta Adhikari and Prashant Ambulkar</i>	1140
114. A Comparative Study of Force Based Design and Capacity Spectrum Method for Bridge Piers <i>Hemant Kumar Vinayak and S.K. Thakkar</i>	1148

DAMS AND TUNNELS

115. Dynamic Response of Gravity Dams by Accounting for the Effects of Stochastic Nature of Earthquake Excitation <i>I.D. Gupta and L.R. Pattanur</i>	1156
116. Nonlinear Earthquake Analysis to Predict Cracking Response of RCC Dam <i>Huda A.M. Thanoon, J. Noorzaei, M.S. Jaafar, W.A. Thanoon and A. Prasad</i>	1163
117. Structural Responses of Roller Compacted Concrete (RCC) Dams through a New Numerical Method <i>P. Moradi Pour, T.A. Mohammed, J. Noorzaei, P. Khanzaei and M.S. Jaafar</i>	1172
118. Verification of Structural Design of a Proposed Gravity Dam in Seismic Zone V by 2D Pseudostatic Approach Using Finite Element Method – A Case Study <i>Rizwan Ali, Hanumanthappa M.S., Shyamli Paswan, S.G. Chaphalkar and S. Govindan</i>	1178

119. A Comparison of Static and Dynamic Responses of 2D and 3D Idealization of a Concrete Gravity Dam 1188
K.R. Abhilash Urs and A.D. Pandey
120. Effect of Modeling Far and Interface Boundary on Seismic Performance of Dam 1198
Santosh V. Athani and Indrani Gogoi

SEISMIC EVALUATION AND RETROFITTING OF STRUCTURES

121. Performance Based Seismic Evaluation of Nine Story Building with Soft Story 1214
Shivashankar S. Dyavanal and Satish A. Annigeri
122. Performance Based Seismic Evaluation of Six Story Building With Soft Story 1226
Shivashankar S. Dyavanal and Satish A. Annigeri
123. An Introduction to a New Seismic Rapid Evaluation Method for Assessment of Existing Masonry Buildings 1237
Mehtab Alam, Amir Mahmoodzadeh, Saied Pirasteh and Syed M. Asghar Rizvi
124. Experimental Investigations on Seismic Retrofitting of Reinforced Concrete Beamcolumn Joints 1251
Akanshu Sharma, G. Genesio, G.R. Reddy, R. Eligehausen, S. Pampanin, K.K. Vaze
125. Three Dimensional Finite Element Seismic Analysis of Masonry School Buildings in Earthquake Prone Area 1263
A.R. Ravanfar, Karisiddappa, J. Noorzaei, Awad Al Karni, Mohammad Dalili S. and M.S. Jaafar
126. Development of Seismic Retrofit Technique of RC Frame Using Fully Fastened Haunch Elements: Static to Dynamic Testing 1269
G. Genesio, Akanshu Sharma, R. Eligehausen, S. Pampanin and G.R. Reddy
127. Cyclic Excitation of GFRP Strengthened RC Beam Column Joints (T-Joints) 1281
Ankit Gupta and Pankaj Agarwal
128. Seismic Retrofitting of Existing Structures: Over Head Tank as TSWD 1294
Nishant Kishore Rai, G.R. Reddy, and V. Venkatraj

INDO-NORWEGIAN INSTITUTIONAL CO-OPERATION WORKSHOP

129. The Indo-Norwegian Institutional Cooperation on Earthquake Risk Reduction 1306
R. Bhasin, E. Erduran, J.J. Galiana-Merino, A.M. Kaynia, D.H. Lang, A.K. Mahajan, B.K. Maheshwari, A.K. Mundepi, D.K. Paul, M.L. Sharma and Y. Singh
130. Use of Characteristic Earthquake Recurrence Modelling for Himalaya Frontal Fault (HFF) in Estimating the Earthquake Hazard Assessment for Dehradun, Uttarakhand, India 1323
M. L. Sharma and C. Lindholm
131. A Comparative Study of Active and Passive MASW and F-K Technique and Optimum Field Parameters for Site Characterization 1335
A.K. Mahajan, J.J. Galiana-Merino, C. Lindholm, A.K. Mundepi and Nitesh Rai

<i>Contents</i>	xvii
132. Suitability of Seismic Refraction Equipment for Seismic Noise Array Measurements and F-K Analysis <i>J.J. Galiana-Merino, A.K. Mahajan, C. Lindholm, J. Rosa-Herranz, A.K. Mundepe, Nitesh Rai and Neetu Chuhan</i>	1349
133. Stability Analysis of a Landslide Using Distinct Element Method <i>Shilpa Pal, Rajinder K. Bhasin, Amir M. Kaynia and Dilip.K. Paul</i>	1359
134. Dynamic Properties of Solani Sand Under Cyclic Loads <i>Suresh S. Kale, B.K. Maheshwari and A.M. Kaynia</i>	1373
135. Numerical Simulations of Earthquake Effect in Underground Structures <i>Rajinder K. Bhasin, Mostafa Abokhalil, Amir M. Kaynia, Kaare Høeg, D.K. Paul and Shilpa Pal</i>	1384
136. Index-Based Methodology for Structural and Non-Structural Vulnerability Assessment of Schools and Hospitals <i>Dominik H. Lang, Yogendra Singh, Maria Isabella Verbicaro and J.S.R. Prasad</i>	1395
137. IVARA – A Tool for Seismic Vulnerability and Risk Assessment of Indian Housing <i>Putul Haldar, Yogendra Singh, Dominik H. Lang and D.K. Paul</i>	1405
138. Limitations of Indian Seismic Design Codes for RC Buildings <i>Vijay Namdev Khose, Yogendra Singh and Dominik Lang</i>	1416
139. Effect of Soil Amplification and Foundation Flexibility on Seismic Performance of a Four Storey RC Frame Building <i>S. Adhikary, Y. Singh and R. Kumar</i>	1424
140. Effect of Discontinuities on the Response of a Concrete Gravity Dam <i>Shilpa Pal, D.K. Paul and A.D. Pandey</i>	1434
<i>Author Index</i>	1449
<i>Subject Index</i>	1455
